### Multi Grease FGG H1

#### Description

Multi Grease FGG H1 is a non-toxic, transparent, white grease formulated from a pure, medicinal base oil and PTFE. It is supplemented with special additives to achieve the following properties:

- Very strong adhesion
- Outstanding resistance to water and steam
- Effective protection against corrosion
- Effective moisture dispersant
- Very powerful protection against wear
- Effective anti stick-slip properties
- Outstanding penetrating ability

#### Application

Multi Grease FGG H1 is an NSF-registered grease with a highly universal character. The special composition means that the product can be used for the following purposes, among others:

- Food industry
- Various types of bearings, including roller bearings and ball bearings
- Chains
- Cables
- A range of power drive systems, even in damp environments
- All kinds of guide-tracks and rods

#### Specifications

N.L.G.I. klasse 0,5

DIN 51825, KPGOG0,5N-30

#### Typicals

Density at 15 °C, kg/l

0,900
